

When considering equipment to donate, please keep in mind that our goal is to give these clubs a second life in the hands of young golfers. While many types of equipment can be used to enjoy the game, we want every set we provide to be something a junior golfer can confidently use and be excited to receive. The kids receiving these sets will either be getting their first set of clubs or receiving a desperately needed update in equipment.

To help us provide the best possible experience for these young golfers, we ask that that donated equipment be appropriate for today's game. If your equipment does not meet the needs of this initiative, we encourage you to consider another organization or outlet where it may still be put to good use. **We have a limited amount of space to store donations so please respect the below guidelines:**

We will NOT Accept:	We will Accept:
- Any club produced before 2000 <i>Older clubs donated will be assessed for quality & junior suitability with high scrutiny</i> - Broken, cracked, or heavily rusted clubs - Clubs with loose or damaged heads or shafts - Persimmon or wooden woods - Incomplete collections of miscellaneous irons - Cart bags - Bags in poor condition or with visible wear	Donations in High Demand: - Ladies flex clubs - Graphite shafted irons - Lighter weight irons suitable for middle school/high school aged kids - More forgiving or oversized irons - Junior sets made specifically for kids In General: - Full iron sets - Spare drivers, woods, or hybrids - Spare wedges - Spare putters - New stand bags/stand bags in excellent condition
